## Make and receive office calls from anywhere

3CX includes VoIP apps for smartphones which allows you to take your office extension with you anywhere.

Answer calls to your office phone extension via your mobile device and transfer to colleagues without asking customers to call another number. make sure you never miss a call again! Employees can leverage one single number and make a professional impression.

## Enhance Company Image

Welcome incoming callers to your business with features like custom greetings, auto-attendant and automated directory. You may also record your own messages as follows:

This feature helps you produce greeting which is established and make you appear as a professional business.

Set up a professional call menu (Press '1' for Sales, Press '2' for Support, etc.) to make your client calls more efficient. Customize for different hours. You can play different menus for business hours versus after-hours.

## Reduce telephone bill

Using a VoIP service significantly lowers rates of phone calls, making it much cheaper than landline calls by more than 40%.

You also save costs internally, as a VoIP provider we offer free calls between your office branches and internal office when calls are made through VoIP. The cost of international calls are also reduced, as the calls are made over the internet.

## Fax to Email

We link your fax number to your email address and deliver all your faxes to your Inbox. Incoming faxes are converted to PDF and forwarded to users via e-mail.

## Music on hold

Keep your callers on the line with recorded messages on hold.

Keep callers engaged by answering frequently asked questions, such as business hours, locations, or directions.

Announce new products, services, and special events—and get more impact from your marketing efforts—with professionally produced messages.

Enhance your messages by adding background music.

## Unified Communications Technology

3CX Phone System for Windows delivers Unified Communications technology by providing presence information. With 3CX Phone System, employees can easily see the presence of other users and avoid making or transferring calls unnecessarily.
